## APAC's Biggest Economies Paving the Way for EV Adoption

- Australia's Future Fuels Fund is a \$71.9 Million cash pile with a stated aim to remove barriers to the uptake of new vehicle technologies.
- In South Korea, the government plans to increase the number of AC chargers to more than 500,000 by 2025, centering on public facilities across the country.
- Japan is aiming to increase the number of EV charging stations nationwide to 150,000 by 2030 and TEPCO is planning to boost the number of rapid chargers on highways to 1,000 units by 2025.
- The Government of India has been supporting the EV industry through schemes such as FAME1 and FAME2 with a major focus on charging infrastructure.
